

MILLPOND LANE BYPASS SEWER PROJECT UPDATE

The contractor is moving along steadily on the boring of the pipe on Main Street and the signs directing vehicles how to access parking for the downtown businesses have been put up per the request of some of the merchants. The project is on schedule!!

They will begin digging the bore pit at the corner of Hyne and Main tomorrow morning, Thursday, June 4th. Vehicular traffic from Main Street onto Hyne will not be available during this time. The westbound Main and eastbound Main traffic detours are still in effect and First Street will remain open throughout the weekend.

The City of Brighton will continue to provide the public with updates.

Please click the below link to view the Phase I Detour Plan and the Phase 2B Construction Plan.

If you have any questions or concerns, please contact The City of Brighton Department of Public Services at thomasp@brightoncity.org or 810.225.8001.
