**City of Brighton Gets in the Zone!**

The City of Brighton's zoning ordinance, subdivision regulations, and sign ordinance are the most important tools our community has to influence growth and redevelopment. Recently, the City kicked off a project to update zoning standards and reformat the ordinance in a way that is more user-friendly. To assist the Planning Commission and City Council with this project, city staff, officials, residents, design professionals, and property owners are asked to participate in a ten-minute online survey to offer input on any parts of the development regulations that they feel may be outdated, unclear, and/or confusing. The Planning Commission will be meeting monthly over the next 10-12 months to discuss amendments to the zoning ordinance, subdivision regulations, and sign ordinance; public comment will be appreciated through the process. The survey is available at this link through June 30, 2016 <https://www.surveymonkey.com/r/brightonzo>.

For more information and/or to view the kick off presentation visit, <http://brightoncity.org/Services-Departments/Community-Development.aspx>.
